

Useful Products for Rose Gardeners

Bayer All-in-One Rose and Flower Care

Each application controls insects, feeds, and protects against disease for six full weeks.

Bonide Captain Jack's Dead Bug

An organic gardening compatible spray which controls a wide array of insect pests on roses and other ornamentals.

Bayer Natria Disease Control

Another organic gardening compatible product which controls a wide variety of diseases including rust, black spot, and powdery mildew.

Bonide Pyrethrum Garden Insect Spray

A fast-acting insecticide derived from chrysanthemums rather than synthetic chemicals that is very effective on the majority of rose pests.
